Presented by:  
**Christiane Perme, PT CCS FCCM**

**June 10-11, 2022 (Fri/Sat)**  
**August 5-6, 2022 (Fri/Sat)**  
**November 11-12, 2022 (Fri/Sat)**

Day 1: 8AM-5PM **Central US Time\***  
Day 2: 8AM-4PM **Central US Time\***

## Webinar Description

Therapists working with patients in ICU face complex challenges. The content of this webinar will guide clinicians through the process of understanding and managing adult ICU patients, from patient selection and therapeutic interventions to choosing outcome measures. This webinar is designed to inspire clinicians to reflect on and understand the clinical principles that promote best practices in the ICU and positively influence the recovery of patients.

## Testimonials

*"Chris is a GREAT course instructor! She presented ALL the information in organized & clear manner."*

*"Very dynamic and passionate speaker."*

*"Best course ever taken! It should be a requirement for every therapist prior to working in ICU."*

*"Great energy and kept audience engaged for the entire 2 days!"*

*"I loved and appreciated the photos/videos. Thank you and thank you for your compassion."*

*"Great speaker who engages the class, very easy to pay attention."*

*Personal experiences added great value to content being taught."*

*"Highly recommend this course."*

*"This course will impact my practice on a daily basis. Thank you!"*

## "Fundamentals Of ICU Rehab" Webinar

### Objectives

Upon completion of this webinar, the participants will be able to:

- Select patients for early mobility and rehab in ICU using clinical decision-making skills.
- Identify ventilator settings on screen and summarize most common modes of mechanical ventilation.
- Identify and state function of commonly vascular catheters, tubes, and equipment used in the ICU.
- Describe two common types of weakness associated with critical illness.
- Discuss clinical implications of lab values and medications in ICU.
- Recognize importance of functional outcomes for patients in ICU.
- Examine therapeutic interventions as treatment options for patients in ICU.
- Identify the role of multidisciplinary team members in ICU.
- Synthesize information for use in clinical and academic practice.

### Schedule

#### DAY 1 - Fundamentals Of ICU Care

**7:30-8:00:** Registration
