"Mechanical Ventilation" Webinar Testimonials

"Great visual examples of various vent settings and impact of vent settings on patient care, also great information of specific vent settings and how they apply to mobility in the ICU..."

"The course was AMAZING!!!"

"Clearly and simply defined the way the ventilator works for therapists."

"The case study at the end tied everything together very well."

"Chris' enthusiasm and encouragement are priceless, really motivating to go to work on Monday and apply what I learned today!"

"Fundamentals Of ICU Rehab" Webinar Testimonials

"Chris is a GREAT course instructor! She presented ALL the information in organized & clear manner."

"Great energy and kept audience engaged for the entire 2 days!"

"Very dynamic and passionate speaker."

"Best course ever taken! It should be a requirement for every therapist prior to working in ICU."

"Highly recommend this course."

"I loved and appreciated the photos/videos. Thank you and thank you for your compassion."

"Mechanical Ventilation: Key Concepts Explained Simply"

Courses fee: \$179.00

March 18, 2023- Sat- 8am-12:30 pm - Central Time

July 13, 2023- Thurs- 2-6:30 pm - Central Time

Objectives

1. Identify ventilator settings and patient data on ventilator screen
2. Describe the significance of PEEP
3. Explain three common modes of mechanical ventilation
4. Discuss two indications for non-invasive ventilation
5. Synthesize information for use in clinical and academic therapy practice

Webinar Description

Therapists play a critical role in the management of patients receiving mechanical ventilation. The content of this webinar is focused on essential information and includes an overview of basic concepts, invasive mechanical ventilation, non-invasive ventilation, and a case report applying learned concepts. This webinar will guide clinicians through the process of understanding the complexities of mechanical ventilation concepts in a simple and practical manner.

*This webinar meets criteria for 4 contact hours/0.4 CEUs

"Fundamentals Of ICU Rehab"

Courses fee: \$450.00

January 28-29, 2023 (Sat/Sun)

April 14-15, 2023 (Fri/Sat)

June 16-17, 2023 (Fri/Sat)

Day 1: 8 am- 5 pm *Central US Time

Day 2: 8 am – 4 pm *Central US Time

Objectives

1. Identify ventilator settings and patient data on ventilator screen
2. Describe the significance of PEEP
3. Explain three common modes of mechanical ventilation
4. Discuss two indications for non-invasive ventilation
5. Synthesize information for use in clinical and academic therapy practice

Webinar Description

Therapists working with patients in ICU face complex challenges. The content of this webinar will guide clinicians through the process of understanding and managing adult ICU patients, from patient selection and therapeutic interventions to choosing outcome measures. This webinar is designed to inspire clinicians to reflect on and understand the clinical principles that promote best practices in the ICU and positively influence the recovery of patients.

*This webinar meets criteria for 14 contact hours/1.4 CEUs
