Discussions, Post-test

Speaker Biography

Christiane Perme, PT CCS FCCM is the owner of Perme ICU Rehab Seminars and a Rehab Education Specialist at Houston Methodist Hospital, where she has practiced as a physical therapist exclusively in ICU for more than 30 years. She is a Board Certified Cardiovascular and Pulmonary Clinical Specialist and a Fellow of the American College of Critical Care Medicine, the first physical therapist in the world to receive such recognition.

Mrs. Perme has extensive experience in early mobility in ICU, with special interest in patients on mechanical ventilation. She has published 23 articles and authored 10 book chapters. Mrs. Perme is a world-renowned speaker and has presented hundreds of courses and lectures in different countries, including United States, Brazil, United Arab Emirates, Chile, Colombia, Puerto Rico, Germany, Denmark, Russia, Nigeria, Netherlands, Canada, and Spain.

“Fundamentals Of ICU Rehab”

Instructor:

Christiane Perme, PT CCS FCCM

Webinar Description

Therapists working with patients in ICU face complex challenges. The content of this webinar will guide clinicians through the process of understanding and managing adult ICU patients, from patient selection and therapeutic interventions to choosing outcome measures. This webinar is designed to inspire clinicians to reflect on and understand the clinical principles that promote best practices in the ICU and positively influence the recovery of patients.

Testimonials

"Best course ever taken!"

"Chris is a GREAT course instructor! She presented ALL the information in organized & clear manner."

"Great energy and kept audience engaged for the entire 2 days!"

"Very dynamic and passionate speaker."

"This course should be a requirement for every therapist prior to working in ICU."

"Highly recommend this course."

"Chris is such an amazing therapist. She inspires us to keep on going and be a better advocate for our patients."

"Chris is passionate about what she does and that's evident. I really enjoyed the course and all the information she shared with us."

AOTA Provider #11159 ("The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA").

Objectives

Upon completion of this webinar, the participants will be able to:

- Select patients for early mobility and rehab in ICU using clinical decision-making skills.
- Identify ventilator settings on screen and summarize most common modes of mechanical ventilation.
- Identify and state function of commonly vascular catheters, tubes, and equipment used in the ICU.
- Describe two common types of weakness associated with critical illness.
- Discuss clinical implications of lab values and medications in ICU.
- Recognize importance of functional outcomes for patients in ICU.
- Examine therapeutic interventions as treatment options for patients in ICU.
- Identify the role of multidisciplinary team members in ICU.
- Synthesize information for use in clinical and academic practice.

"Fundamentals Of ICU Rehab"

January 26-27, 2024 - Fri/Sat

June 21-22, 2024 - Fri/Sat

Schedule

Day 1 - Fundamentals of ICU Care

7:30-8:00: Registration
8:00-9:00: Early Mobility and Rehab in ICU: Clinical Concepts & Evidence Based Practice
9:00-9:30: Mechanical Ventilation Explained Simply
9:30- 9:45: Break
9:45-11:30: Mechanical Ventilation (cont.)
11:30-12:00: Non-invasive Ventilation
12:00- 01:00: Vascular Catheters
1:00-2:00: Lunch
2:00-3:00: Artificial Airways
3:00 - 3:15: Break
3:15-4:15: ICU Monitoring, Equipment and Medical Devices

Day 2 - Essentials of ICU Rehab

8:00-9:00: Weakness in the critically ill
9:00-10:00: Medications commonly used in the ICU
10:00 - 10:15: Break
10:15- 10:45: Interpreting Laboratory Values
10:45 -11:30: Assessment of patients in ICU
11:30-12:00: Functional outcome tools in ICU
12:00- 01:00: Post-Intensive Care Syndrome (PICS)
1:00-2:00: Lunch
2:00 - 2:30: Therapy Interventions: Function oriented treatment from Positioning and Exercises
2:30 - 2:45: Break
2:45 -3:45: Therapeutic Interventions in ICU: Function oriented treatment for Transfers and Ambulation
3:45 - 4:00: Final Thoughts / Discussion
